Section 400

Rev. Date: September 14, 2010

## Program for 2010 - 2011

The American Society for Quality is the worldwide leader in the development, promotion and application of quality and quality technologies for the quality profession and the private sector, for government and academia. Its goal is: To create a greater awareness of the need for quality, to promote research and the development of standards, and to provide educational opportunities to ensure product and service excellence through improved quality.

The mission of the Hamilton Section of the American Society for Quality is to provide a forum for our members to facilitate their continued learning, networking and problem solving in the quality sciences. This mission is accomplished through regular section meetings, plant tours, information bulletins, our website and the active support of our local college and university quality education programs.
