**Topic: ISO 9001:2015**  
**Speaker: Emily Delisle**

With the 2015 version of ISO 9001 less than a year away from publication, ISO/TC 176 – the technical committee responsible for the standard, has been hard at work on the revision since 2012. ISO 9001:2015 is coming, and there is a new structure and new requirements. The impact of this revision will be similar to, if not greater than the 2000 edition, a major change for accreditation bodies, certification bodies, training organizations, consultants and customers.

During this update session we will review the key changes in the Draft International Standard (DIS) of ISO 9001:2015, discuss the reasoning for these changes, and look at how the changes affect current requirements. We will also review the transition period and process for updating from the ISO 9001:2008 standard to the new 2015 revision.

## Emily Delisle - Biography

Emily Delisle is the Vice President of Accreditation at The Registrar Company, Inc. (TRC), an international certification body with offices in Dallas, TX and Guelph, ON. She has been involved in Management Certification for over 10 years in many roles, which include auditing as well as the management of accreditations with oversight bodies. Emily has recently been on the ISO 9001:2015 exam writing committee with Exemplar Global, the IAAR and PECB. She also works on other writing committees within Exemplar Global. Emily attended University of Guelph graduating with her BScH. with focus in Psychology and Food Science.

### Message from the Chair

Dear Friends,  
Welcome back to ASQ Hamilton Section.

On behalf of the Executive Committee, I would like to extend a warm Welcome to the new members who recently chose to join the Hamilton Section. Together, we will strive to promote Quality in our local community. We are looking for enthusiastic volunteers to serve in our Executive Committee. Currently, we have two vacancies to fill - Membership Chair and Publicity Chair. If anyone is interested, please contact one of the Executive Team members.

Thank you to those who participated in the 2014 ASQ Satisfaction and Loyalty Survey and provided positive feedback on how the local Section is serving your needs. The mission of the Hamilton Section is to provide a forum for our members to facilitate their continued learning, networking and problem solving in the quality sciences. The Executive Committee will consider all your comments and strive to work on improving the member satisfaction. If you have any questions or suggestions for improvement,

please feel free to contact any of the Executive Committee members via e-mail or through the social media – Facebook and LinkedIn.

The Hamilton Section is very keen in promoting Quality in local community, especially through the educational institutions. Students can attend the Section Membership meetings and listen to the Presentations free of cost. There are exciting opportunities for students as well as faculty members to avail scholarships and honorariums through the Quality Management Division of ASQ. For more details, please see the ASQ Canada link at <http://www.asqhamilton.com/>

Unfortunately, due to the winter storm, the Section Membership Meeting held on Feb 04 was wrapped up without the scheduled Presentation on the topic “Quality in University Education”. This event will be rescheduled sometime in October or November 2015. Please stay tuned.

The next Membership Meeting will be held on March 19, 2015. There will be an interactive Presentation on the topic “ISO 9001:2015” by Emily Delisle of the Registrar Company. Mark your calendar and plan to attend this event, as this is a good opportunity to learn about the major changes in this Quality Management System Standard and understand how they would impact your company. I look forward to seeing many of you at this event.

Sincerely,  
Kris Krishnamoorthy, P. Eng.  
Chair, ASQ Hamilton Section (0400)

## **Quality Assurance / 3D Printing (Additive Manufacturing) / CMM & GD&T Courses at Mohawk College**

It is another successful semester for the Q.A. Certificate courses. QC101 Quality Concepts, Techniques and Motivation is being taught by Joe Curto C.Q.E.

The CE classes offered are:

QUALQC101 Quality Concepts, Techniques & Motivation - January offering  
MATHQC102 Statistical Process Control 1 - April offering  
MATHQC103 Statistical Process Control 2 - September offering  
QUALQC104 Availability, Reliability & Maintainability - January offering  
QUALQC105 Principles of Metrology - September offering  
QUALQC106 Inspection & Testing - April offering

A CE course is offered for 3D Printing/Additive Manufacturing in the microlab in E wing. 3D Printing is the production of a part by adding material rather than the conventional process of removing material. The advantage of 3D Printing is the reduction of waste and the production of complex shapes that cannot be obtained by conventional processes. The lab is equipped with computer workstations for the design of the part and Afinia and Uprint printers to produce it, the current project is to produce a chess set.

Two courses offered under Mechanical Design which may be of interest are CMM (Coordinate Measuring Machine) and GD&T (Geometrical Dimensioning & Tolerancing).

If you would like more information on the courses the details are contained in the Mohawk College CE catalogue or you can contact:
