## Topic: **How to Achieve NADCAP Accreditation (Aerospace and Defence Contractors)**

Speaker: BV Alexander

Prior to NADCAP, OEM aerospace companies audited their own Suppliers to their own process requirements to verify compliance. As the processes the Suppliers were providing to their customers were often similar or identical, the customer requirements were comparable. Performance Review Institute was incorporated to administer the NADCAP program as a solution to the duplication of Supplier process control system audits. This session highlights the process of getting NADCAP accreditation.

BV Alexander is a Quality consultant and ISO 9001 Lead Auditor. BV is a Mechanical Engineering graduate. He possesses over 20 years of experience as a quality professional in aerospace manufacturing. BV joined ASQ in 2003 and is currently a senior member, ASQ Certified Quality Engineer, ASQ Certified Quality Auditor, ASQ Certified Six Sigma Green belt, ASQ Certified Quality Technician. He became part of the Hamilton section committee in July 2015. Currently he is assisting the Hamilton section as membership chair and chair elect.
