

Program for 2018

ASQ (The American Society for Quality) is the worldwide leader in the development, promotion and application of quality and quality technologies for the quality profession and the private sector, for government and academia. Its goal is to create a greater awareness of the need for quality, to promote research and the development of standards, and to provide educational opportunities to ensure product and service excellence through improved quality.

The mission of the Hamilton Section of ASQ is to provide a forum for our members to facilitate their continued learning, networking and problem solving in the quality sciences. This mission is accomplished through regular section meetings, plant tours, information bulletins, our website and the active support of our quality education programs in our local colleges and universities.

Event Schedule for 2018
