

## NQA is looking for new Associate Auditors

NQA (National Quality Assurance), a leading global certification body, is looking for new Associate Auditors in Ontario to work with us on a contract basis. If you have qualifications or experience relevant to any of the standards for which we're accredited, we're interested in hearing from you. Those standards include ISO 9001, ISO 14001, ISO 27001, ISO 45001, IATF 16949, TL 9000, ANSI/ESD S20.20, R2 and the Aerospace standards – among others.

Ideally, you will have external audit experience, a certificate of lead auditor training, and a background in relevant business sectors; but we are prepared to work with the right candidates on the development of their qualifications to bring them onboard.

NQA offers competitive day rates, prompt payment of invoices and reimbursement of expenses, and regular training opportunities, including an annual two-to-three day Auditor Teaming session.

If you are interested, please contact our Auditor Support Representative, Alicia Guay, at 1-800-649-5289 or [aguay@nqa.com](mailto:aguay@nqa.com). If you have a CV, audit log and relevant certificates ready to send along, please do so.
